A Message from the Chair

Hello Fellow SPE Members,

WRM

Congratulations to all LASPE Western Regional Meeting (WRM) Committee Members for everyone’s hard work, time and efforts on making the 2010 WRM a success. Everyone on the Technical and Program side dedicated their personal time to help the LASPE Section to increase participation. Everyone was very pleased with all the planned activities that covered a wide range of scientific, technical and educational disciplines. LASPE also achieved its goal by networking and sharing information with other professional societies that are active in petroleum engineering or related areas. Involved societies included the Pacific Section American Association of Petroleum Geologists, and The Geological Society of America-Cordilleran Section.

I appreciate our member’s participation in the LASPE/PTTC short courses, field trips, technical sessions, student paper contest, SPE presidents and WRM luncheon. Special thanks to Jalal Torabzadeh and Scott Hara, our 2010 WRM Chair and Co-chair, for putting together the event. Thank you Iraj Ershaghi, your committee, and the speakers for your excellent Technical Program and special thanks to your tireless assistants, Julie Legat and Idania Takemoto. Thank you all Board and Committee Members, especially Brandy Fellers, for coordinating and volunteering in our SPE Booth. We are indebted to Jerry Anderson of the West department...

Coast PTTC, AB Gorashi of the DOGGR, and the instructors for their wonderful workshops, which attracted almost 250 participants.

YP Activities

During our short course luncheon, section members participated in the YP Student Panel with Dr. Behrooz Fattahi 2010 SPE President and Sam Sarem, our WNAR Director. Our two speakers targeted young students and our Young Professional and provided feedback on YP experiences, industry training, internships, responsibility and challenge of work assigned, transfer opportunities, compensation, recruitment programs, etc.

On Wednesday, May 26, during the evening, The Young Professional group also put together a Dinner Cruise at Newport Beach Harbor for the Student Paper Contest Awards. The night included a relaxing and fun evening of sailing aboard the Tiki Boat. The dinners included a delicious Persian Cuisine and we also had our 2010 SPE President present to announce the winners of the Student Paper Contest.

Thank you Candra Janova, Katy Canan, and Aditya Varma for being active in our LA SPE Young Professional group and your participation at the WRM.

Scholarships

Jack Smith, Scholarship Chairperson, along with the Scholarship committee selected the final recipients, which are listed in our newsletter. We had a very impressive list of applicants with high GPAs and SPE involvement. We are very proud and Congratulation to all of our students.

Thank you,

Vanessa Perez
SPE Chairperson

A Summary Report of May Workshops at the WRM

Continuing Education

On May 25 and May 26, at the Anaheim Convention Center, the LA Section of SPE Western North-American Region and West Coast Petroleum Technology Transfer Council proudly presented our Continuing Education Program. The workshops were associated with our 2010 SPE Western Regional Meeting that was held jointly with the Pacific Section AAPG and Geological Society of America. There were about 250 attendees for the workshops that indicate a large progress in our training efforts.

The workshops covered industry and regulating agencies needs such as Petroleum Geology, Oil & Gas Permitting, CEQA, Thermal Recovery, Petroleum Engineering, Reservoir Surveillance & Flood Management, Drilling Engineering and Facility Engineering.

Several companies supported and sponsored the workshops such as Berry Petroleum, Chris Hall, Oxy Elk Hills, E&B Natural Resources, Global Energy Partners, Innovative Energy Ideas, Petrolects, LLC, Plains E&P Company and Schlumberger.

In light of the above, the LASPE will continue to hold future successful workshops.

PETROLEUM TECHNOLOGY FORUM PROGRAM, JUNE 8TH, 2010

CALIFORNIA ENERGY REALITY
BY DAVID L. SLATER
SIGNAL HILL PETROLEUM, INC.

Abstract:

Crude oil is a critical source of energy to California and the nation as a whole and will remain so for decades to come. The economic and security benefits of domestic crude oil production are significant, but not well understood. For California, the jobs and total tax revenues generated by in state crude oil production are substantial and can be increased. In contrast, imported crude oil pays no taxes and creates few jobs, but California is dependent on imports for more than 60% of its crude oil supply.

Maximizing the mix of viable renewable and alternative energy sources is important to California’s energy future, but the reality is that crude oil will remain the main supply of liquid transportation fuels for some time to come. In this presentation we will present a compelling picture drawing on historical information, government forecasts and the science and physics of energy.

Bio – David L. Slater:

David L. Slater is currently the Executive Vice-President for Signal Hill Petroleum, Inc., a California based independent oil and gas production company. Mr. Slater joined Signal Hill Petroleum in 1998 and is responsible for the company’s day to day operations as well as strategic planning and acquisitions. He has over 30 years of oil industry experience which include serving as the Regional Director of New Business Development – Western United States for Texaco, Asset Manager for coastal California for Santa Fe Energy Resources and Regional Drilling Manager for the western United States for Santa Fe Energy Company. Mr. Slater has a B.S. in Mechanical Engineering from Cal Poly Pomona and has pursued graduate studies in Petroleum Engineering at the University of Southern California. Mr. Slater has been a Registered Petroleum Engineer in California since 1989.

We look forward to seeing you at the forum!

Katherine Wallgren
Forum Chairperson
Katherine_Wallgren@oxy.com
WNARM Thanks to Contributors and Volunteers

On behalf of the 2010 WNARM Organizing Committee, we would like to thank all of you who have been involved in planning, preparing, arranging, and conducting this successful joint meeting. Without your support, dedication and hard work, it was impossible to plan and hold the 2010 SPE WNAR meeting in our area in a very short period of time. Also, thanks to all of you who attended the meeting and by your participation made the convention even more successful.

Many thanks to Dr. Ershaghi and members of the Technical Program Committee, for soliciting, reviewing, and selecting quality technical papers from distinguished authors, and for organizing 16 excellent technical sessions, offered over 2 days at this convention.

We really appreciate all the help and continuous support we received from SPEI staff: Cindy Madding, Dana Rhoden, Brian Wiggins and others throughout this process.

We are very thankful to our colleagues, Curtis Henderson of AAPG and Phil Armstrong of GSA for their warm reception, collaboration, and support for making this unique joint meeting of GSA-AAPG-SPE possible for the first time in the Western North America Region. Hopefully, this would be the beginning of more collaborations and team work of geoscientists and engineers in meeting the challenges we face in achieving our common goals and objectives.

Many thanks to Jerry Anderson and his colleagues at the West Coast Petroleum Technology Transfer Center (PTTC) for arranging/sponsoring nine excellent continuing education short courses (with over 250 registrants!) in collaboration with LA SPE. Help from AB Gorashi with arrangement of continuing education courses is appreciated.

We really appreciate the efforts of Adi Varma in coordinating/moderating the 2010 SPE WNAR Student Paper Contest and the USC SPE Student Chapter for hosting the Contest and their hard work in arranging the Student Awards Banquet (dinner cruise on the Tiki Boat) on Wednesday May 26.

Thank you Candra Janova and the LASPE Young Professionals for arranging and conducting the Meet and Greet luncheon with SPEI President Behrooz Fattahi and WNAR Director Sam Sarem. That was an informative and interesting meeting.

Financial support of student activities by OXY, AERA Energy, CiSoft, and SPE San Joaquin Valley Section is greatly appreciated.

Thanks Rick Finken, our LASPE (as well as the meeting) Treasure for trying to hopefully, keep us over the water!

LA SPE Board members, committee chairs and all volunteer members, USC and CSULB SPE student chapters volunteers: thank you for your help, support and dedication.

Last but not least, we would like to express our thanks and appreciation to Juli Legat, CiSoft Administrative Assistant, Idania Takimoto, and several USC petroleum engineering graduate students for their help throughout this meeting.

Finally, we would like to request all my SPE colleagues who had responsibilities for various parts on the SPE side, to please submit a short report of your activities to us for inclusion in the final report of the meeting which is required by SPEI soon.

Dr. Ershaghi has already submitted a comprehensive report of the Technical Program Committee that we will share with you shortly.

Again, thank you for all your help and support.

Sincerely,

Jalal Torabzadeh

THE LASPE 2010 CRUDE PRICE CHALLENGE

WE HAVE WINNERS!

Congratulations to our first and second place winners Ana Tovar and Nazee Heda. Recent events in the Gulf of Mexico threw all recent forecasting trends out the window and their forecasts, though a little on the pessimistic side, proved to be the most accurate.

Ana forecast a June 1, 2010 price of $65.01 for each barrel of 170 Wilmington Crude, which turned out to be only $0.69 under the actual price of $65.70.

Nazee’s price of $67.50 was only $1.80 off the mark.
LA SPE GOLF TOURNAMENT IS GREAT SUCCESS

Everyone, I would like to thank you all for making this year's SPE Golf Tournament another successful event! Rick has let me know that we so far have raised a net profit of over $15,000, twice what we did last year with still some outstanding money yet to come. Looks like we should end up with a net profit somewhere near $17,000 thanks to everyone's hard work.

Tracie, thanks once again to Weatherford for putting together a great pre-tournament BBQ. Juan, thanks once again for all your long hours putting together the signs, poster boards and your assistance on the registration material.

Thanks again to all for everyone's effort in making this another great event!

Best Regards,
Mark Shemaria
SCHOLARSHIP REPORT

At the May 10, 2010 Board Meeting, The Scholarship Committee presented its recommendations for the award of Dr. Bruce W. Davis Memorial (USC), Graduate, Undergraduate, and Mei Chang scholarships. A total of $11,000 is being awarded for the 2010/2011 school year. We are pleased to announce the following scholarship award winners:

Dr. Bruce W. Davis Memorial (USC):

- Parham Ghods, USC, $1000

Graduate:

- Dianeh Babu Gunasekaran, USC, $1000
- Hamid Reza Jahangari, USC, $1000
- Mohammad Javaheri, USC, $1000
- Reza Rastegar Moghadam, USC, $1000
- Dalad Nattwongasem, USC, $1000
- Sanez Seddighrad, USC, $1000
- Hasan Shojae, USC, $1000
- Tayeb Ayatollahy Tafti, USC, $1000
- Mohammad Evazialk Yadecuri, USC, $1000
- Mir Hashim Ali Zain, USC, $1000

Undergraduate:

- Jessica Cook, CSU Long Beach, $500
- Matthew B. Perry, CSU Long Beach, $500

Mei Chang Scholarship:

- Garrett Hara, Stanford University, $500
- Riannon Eileen Romero, York College, $500

Scholarship awards will be presented to the students at the LASPE Monthly Technology Forum on June 8th, 2010 at the Long Beach Petroleum Club.

LASPE’s Scholarship program is financed by the golf tournament proceeds plus some reimbursement from SPE International.
WNAR STAR SCHOLARSHIP & FELLOWSHIP AWARDS

Dear SPE STAR Scholarship and Fellowship Applicants:

SPE appreciates the time and energy you devoted to applying for the Society of Petroleum Engineers STAR Scholarships and Fellowships. The Regional Scholarship Committee carefully considered each application thoroughly.

The committee considered many aspects including academic records, leadership and communication skills, interest in petroleum engineering as a profession, and contributions to the Society of Petroleum Engineers (if applicable).

On behalf of Sam Sarem, SPE Western North America Regional Director, I am pleased to announce the recipients of the Society of Petroleum Engineers Western North America Region STAR Scholarships and Fellowship for the 2010-2011 academic years.

**Western North America Region STAR Scholarships:**
- Bryson Alef
- Courtney Enright
- Rachel Gantt

**Western North America Region STAR Fellowship:**
- Ramil Ahmadov

SPE values education and we hope that you continue to pursue education related to the petroleum industry. I encourage you to continue to apply for SPE scholarships. SPE summarizes scholarship opportunities provided by the SPE and by local SPE Sections on our website  
http://www.spe.org/spe-app/jsp/siteFunctionality/scholarships.jsp

Sincerely,

Erin O'Sullivan
Regional Activities Coordinator
Society of Petroleum Engineers
222 Palisades Creek Drive, Richardson, TX 75080 972-952-9423
LASPE SCIENCE FAIR AWARDS

The winners for LASPE Science Fair Awards, from yesterday's State Science Fair, is as follows:

Matthew J. Chaffee
Christa McAuliffe Elementary School, Bakersfield, Kern County
J0702 - "Me and My Oil: Finding the Most Ideal Reservoir by Measuring Sedimentary Rock's Permeability and Porosity"
Check # 1136

Tristan J. Chester
Quail Lake Charter School, Clovis, Fresno County
J0703 - "Which Type of Sedimentary Rock Is the Best Storage Rock for Petroleum Oil"
Check # 1137

Matt A. West
South Pasadena High School
Los Angeles County
S1928 - "Air Capacitor Based Oscilloscope Impedance Spectroscopy: An Effective Method for Characterizing Oil-Water Emulsions"
Check # 1138
LASPE BOARD MEETING MINUTES
MAY 11, 2010
Includes revision received through 5-19-10

The meeting was called to order at 10:50 AM

1. In attendance:
   Vanessa Perez
   Rick Finken
   Sam Sarem
   Brandy Fellers
   Scott Hara
   Jack Smith
   Craig Webster
   A.B. Gorashi
   Eric Withjack
   Candra Janova
   Bob Visser
   Jalal Torabzadeh
   Mike Utt (by Proxy to Vanessa)

2. The meeting’s agenda was reviewed and approved.

3. The minutes of the April 13, 2010 meeting were approved.

4. Announcements:
   4.1 Vanessa requested volunteers for the June 4, 2010 read-in at International Elementary School. Brandy
       Fellers said she would like to participate.
   4.2 Three Legion of Honor Members will be recognized at today’s Forum. Vanessa will make a short
       presentation to each one just before our speaker is announced.
   4.3 Rick Finken reported that the Golf Tournament was a success and is on track to net approximately
       $13,500.

5. Reports
   5.1 Treasurer’s Report: Rick Finken reported that in March income exceeded expenses by $14,625 and that
       the total value of LASPE’s assets was $89,801 at April month-end. This good result is largely due to
       Golf Tournament registrations. Rick also advised that LASPE’s annual financial statement has been
       submitted to SPEI.
   5.2 Golf Tournament Report: See above.
   5.3 WNAR/ SPEI Report: Sam Sarem reported on how the WNAR Council voted to split the STAR $5,000
       Scholarship and $10,000 Fellowship monies. Three undergraduate scholarships of $2,000, $1,500 and
       $1,500 were given for four consecutive years. The fellowship money of $10,000 was given to one
       graduate student for four consecutive years. The awardees will be notified by SPE on 15 May. A
       committee has been appointed to come up with uniform Score Sheets that can be used in the future and
       revisit the recommended number of awards to be given by the available money

continues on next page . . .
6. Old Business:
6.1 Science Fairs: Jack Smith plans to attend the California State Science Fair on May 18th at Exposition Park.
6.2 Section Luncheon with SPE President Behrooz Fattahi: This is scheduled for September 2, 2010, but was not covered.

7. New Business:
7.1 2010 WRM:
7.1.1 Short Courses: To date, there are 153 registered and the short courses are on track to make a profit of $2,488. The need for monitors at each class was discussed.
7.1.2 SPE Luncheon: To date, 43 are registered.
7.1.3 Luncheon on 5/26: This will be a panel discussion with LASPE Young Professionals and SPE President, Behrooz Fattahi.
7.1.4 Student Paper Contest: Scott Hara is arranging the awards banquet and is looking into using the Tiki Boat out of Newport Harbor. This was done at the 2007 ATCE and was very successful.
7.1.5 SPE Booth: Brandy Fellers reported she has 7 volunteers, but needs 5 more.
7.1.6 Young Professionals: Candra Janova requested money for T-Shirts with an SPE logo to set the YPs apart since they will be doing volunteer work at the convention. The Board approved an order of up to 10 shirts costing no more than $500.
7.2 End of the Year Report: This is due at SPEI June 1. Vanessa will put it together with the help of the various chairpersons. Student chapter reports will be included.
7.3 New Officer Position Fill Out: Vanessa will handle this.
7.4 New Budget Items: None.
7.5 Section Activities:
7.5.1 Outreach: Covered above
7.5.2 Young Professionals: Covered above
7.5.3 Continuing Education: Covered above
7.5.4 Scholarships: Jack Smith reported that he has 11 graduate candidates and 4 undergraduate candidates. One of the graduate candidates would be receiving the Bruce Davis scholarship, which includes an extra $1,000 so the total funding required is $14,000. Since only $10,000 is budgeted, an additional $4,000 was requested. It was pointed out that our 2009-10 Budget now forecasts a shortfall of $11,450 and this addition brings that to a projected shortfall of $15,450. As it stands now any shortfall would have to come out of investments or reserve funds. The Board moved and approved the extra funding.

8. The meeting was adjourned at 12:00.

Rick Finken, acting secretary
POSITIONS AVAILABLE

PXP
Plains Exploration & Production Company

Are you looking for a challenge and professional growth? Do you want to make an impact and be rewarded for your results? At PXP you will have these

We are currently recruiting for the following position at our Bakersfield, CA location

RESERVOIR ENGINEER

ESSENTIAL DUTIES AND RESPONSIBILITIES:
• Conducts Reservoir surveillance to monitor production performance and make recommendations for optimization.
• Completes reservoir studies and performs reservoir engineering functions including decline curve analysis, material balance, volumetrics, waterflood studies, pressure transient analysis, nodal analysis, etc.
• Evaluate and initiate exploitation opportunities including new drill wells and workovers.
• Prepare production forecasts, operating plans, expenditure forecasts, etc. and evaluate economic models for asset valuations and budget preparation.
• Experience with waterflooded and/or thermal recovery oil fields very favorable.
• Support exploration teams in evaluation of projects including construction of economic models, probabilistic estimation of reserve potential, play analysis, production forecasting, evaluation of possible development scenarios, commercial thresholds, capital commitments, operating expenses and overall operational plans. Perform risked economic assessment including decision tree analysis.
• Evaluate and perform detailed assessments of potential acquisition and divestiture candidates.

POSITION SPECIFICATIONS:
• Minimum of BS in Engineering.
• Minimum of 10 years of reservoir engineering experience, preferably in the oil and gas industry, with a technical proficiency in all areas of reservoir engineering.
• Must have a working knowledge of commercial oil and gas economics software. PXP uses Merak's PEEP. Training will be provided.
• Working knowledge of field surveillance/management software extremely beneficial.
• PXP uses OFM. Training will be provided.
• Must be proficient in use of PC@s (IBM compatible) and Microsoft Office.
• Must have good presentation, communication and technical writing skills.
• Must be flexible and adaptable to changing priorities and meet established deadlines.
• Must be a self-starter interested in working in a team-oriented environment that delivers high quality, comprehensive, well-planned work product.

Competitive benefits package. Submit Cover Letter & Resume to: PXP Attn: HR, 1200 Discovery Dr., Suite 500, Bakersfield, CA 93309 or Fax 661-395-5283 or email calcareers@pxp.com EOE, M/F/D/V
City of Long Beach, Gas & Oil Department

PETROLEUM ENGINEERING ASSOCIATE

Job Number: 39

SALARY RANGE:
Grades I - II: $2,403.68 - $3,801.28 Biweekly
$5,226.00 - $8,264.00 Monthly

Applications available: 7:30 a.m. to 4:30 p.m., May 28, 2010 through August 20, 2010. Completed applications and supplemental applications must be received in the Civil Service Department by 4:30 p.m., August 20, 2010. Postmarks will not be accepted. Online applications are encouraged.

REQUIREMENTS TO FILE: Graduation from an accredited college or university with a Bachelor's degree in Petroleum Engineering or Chemical Engineering (proof required)* OR Bachelor's degree from an accredited college or university (proof required) *, and two or more years (full-time equivalent) of experience in petroleum engineering, oil field operations, or other petroleum related operations. AND

• Knowledge and ability to operate computers using spreadsheets, word processing, and other business and technical software pertaining to petroleum engineering.

• Willingness to work occasional weekends, holidays, and split shifts.

• Proof of a valid motor vehicle operator's license and a current DMV driving record, is required at time of appointment and must be presented to the hiring department at the time of selection interview.

*Applications will not be processed until all required proofs are received. Any required proofs, such as diplomas, transcripts, or certificates, must be received in the Civil Service Department by 11:59 p.m., August 25, 2010. Documents may be uploaded to the online application, submitted in person, faxed to (562) 570-5293, or emailed to civilservice@longbeach.gov.

DESIRABLE QUALIFICATIONS: Wilmington Oil Field or water flood operations experience.

EXAMPLES OF DUTIES: Under supervision, performs increasingly complex and responsible petroleum engineering and/or geology work pertaining to oil field development, oil and gas production operations, enhanced recovery methods,

(examples of duties continued) and other related work; participates in project teams for economic and operational evaluation of field activities and reservoir surveillance; participates in evaluating procedures to ensure oil field environmental and safety regulatory compliance; prepares, reviews or assists in the preparation of petroleum engineering projects, studies, and programs pertaining to oil field development, oil and gas production operations, drilling, oil and gas reserves, field equipment, secondary recovery, enhanced oil recovery, abandonment operation; assists in the planning of oil field, community and industrial development to ensure oil operations compatibility with competitive land use areas; participates in developing operational plans to optimize economic oil recovery; evaluates contracts and regulations pertaining to the oil operations; assists in the development of oil fields budget; assists in the preparation and the making of formal oral presentations to City, Department, contractor, and regulatory personnel; may conduct physical and chemical tests concerning oil, gas and water; may perform in a lead capacity over subordinate personnel; and performs other related duties as required.

SELECTION PROCEDURE: This examination will be conducted using the continuous, non-competitive procedure of placing qualified individuals on an eligible list, with those receiving Veteran's Credit first, and then in the order in which applications were filed. Screening of candidates will be conducted on the basis of applications, supplemental applications and resumes submitted. Resumes will be accepted, but may not be substituted in lieu of the required application. As vacancies occur, the names of qualified applicants will be submitted to the requesting department for consideration.

If you have not received notification by September 3, 2010, contact the Civil Service Department at (562) 570-6202.

This information is available in an alternative format by request to (562) 570-6202.
